To,
The Hiring Manager,
[Company or College Name]
[City, Gujarat]

Subject: Application for [Web Developer / Assistant Professor – Computer Science] Position

Dear Hiring Manager,

I am writing to express my strong interest in the **[Web Developer / Assistant Professor]** position at your esteemed organization. As a dedicated BCA candidate (2025) with a deep passion for software development and programming, I bring a unique combination of technical proficiency and over 13 years of professional leadership experience.

I have built a strong foundation in **PHP, Java, MySQL, HTML, CSS, and JavaScript**. To apply my theoretical knowledge to real-world scenarios, I have independently developed multiple full-stack projects, including a *Blood Bank Donor Management System* and an *Online Car Rental System*. You can view the live demos and GitHub source codes of these projects on my personal web portfolio: sagarpatel-portfolio.netlify.app.

While my recent focus is on computer applications, my 13+ years of experience as a Senior Technical Supervisor have equipped me with invaluable transferable skills. Managing critical data, operating complex technical equipment, and mentoring junior staff have honed my problem-solving abilities and communication skills. Whether it is writing clean code to solve a complex bug or explaining a difficult programming concept to students, I approach every challenge with patience and logic.

I am highly motivated to bring my technical skills, maturity, and dedication to your team. I would welcome the opportunity to discuss how my background, recent projects, and continuous learning mindset align with your institution's goals.

Thank you for your time and consideration. I have attached my resume for your review.

Sincerely,

Sagar Patel
